

# Waterloo Medical Centre Newsletter

Don't forget **SHOW!**

A sexual health clinic that we run at the practice.

Appointments available **EVERY DAY**

- Emergency Contraception
- Contraceptive Advice
- Chlamydia Testing
- HIV Testing
- Sexual Health

Both registered and non-registered patients welcome!

Welcome to the latest edition of the Waterloo Newsletter!!

This newsletter is our way of keeping you up to date with any changes or events happening at the practice.

The newsletter will be published quarterly and will be available in surgery and online.

## Easter

Over the Easter the opening times are as follows :

- Friday 18/4/14 Closed All Day
- Saturday 19/4/14 Closed All Day
- Monday 21/4/14 Closed All Day
- Tuesday 22/4/14 Open as Normal

If you need medical advice whilst we are closed please call 111. In case of a medical emergency please call 999.

## Emis Access

We have online patient access for you to make an appointment, cancel an appointment, order prescriptions and update your contact details.

You need to register to use this Service, just as reception or go to the website [www.waterloomedical.co.uk](http://www.waterloomedical.co.uk) for more information.

## Patient Participation Group

We are looking for patients to join our Patient Participation Group. This group has been created on a voluntary basis. The aim is to conduct surveys for the practice and ensure that your views help us to make improvements.

All you have to do is be able to spare some time to receive and respond to emails and possibly attend the surgery for infrequent meetings.

If you're interested please ask for a form at reception .

## Patient Survey

The practice would like to thank all patients who took part in our recent survey.

Results will be advertised on our website & reception from 31/3/14

## Update your contact details

Please inform reception or go online to update your :

- Mobile Number
- Address

## Whooping Cough Vaccine for Pregnant Women

In order to protect newborn babies against whooping cough, it is being advised that pregnant women receive the jab between **28-38** weeks. Please ask at reception to make an appointment
